

Job announcement

RoadCloud is a Connected Car data platform selling data for road maintenance and companies dealing with traffic information systems. Our key product is accurate and local road weather information that is increasingly important when autonomous vehicles are becoming more popular. Our current customers are in Finland, Sweden and Germany.

We are looking for a **Business Administration or Marketing Intern** to join our team at the Tapiola office in Espoo. The internship starts in March-April 2019 and lasts 6-8 months. The exact dates can be agreed separately.

Job title:

FULL TIME WORK: Business Administration or digital marketing intern

THIS IS AN IDEAL POSITION IF YOU:

- Are a student or you have just graduated
- Want to learn about data intensive technology business
- Want to get hands-on into our business, marketing and operations. You e.g. work together with CEO in business administration and run digital marketing campaigns by yourself.
- Want to build a track record in a start-up world.

WE ARE EXPECTING FROM YOU:

- Good project management and coordination skills
- Excellent communication and writing skills in Finnish and English, Swedish or German is an asset.
- Ability for independent decision making
- Energetic and positive attitude
- Good team working & social skills
- Above basic-level IT skills is a huge plus
- Accounting, CRM and digital marketing skills are an asset.

WE ARE OFFERING YOU:

- An interesting and rewarding job with cool colleagues in an innovative growth company
- An opportunity for personal development and learning
- Flexible working hours
- A monthly intern-level salary
- Possible future position
- Not to forget, we have a cozy office with free beverages and snacks
